**IP66 WEATHERPROOF
WIRING ACCESSORIES**

WEATHERPROOF WIRING ACCESSORIES

The IP66-rated weatherproof socket and switch enclosures offer users a single fix installation - with the whole of the back box fixing to the wall to accommodate the socket or modules. Multiple knock-outs on each side (20mm) allow for entry from all angles, and a flexible rubber base with rear entry gasket provides extra weatherproof protection, as well as allowing for mounting on most types of uneven surfaces.

20A SWITCH MODULES

20A

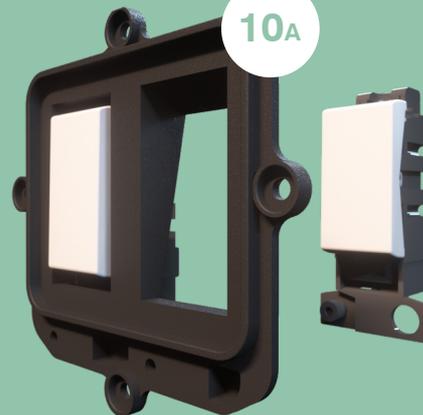

GRIDPRO

Gridpro® switch modules are 20A rated so they are ideal for both domestic and commercial applications.

Screw Attachment Feature

Allows easy removal and assembly of the module onto a grid Yoke.

10A SWITCH MODULES

10A

MINGRID

Minigrd™ switch modules are 10A rated so and feature a simply single screw installation.

Single Screw Feature

Easily and quickly mount modules onto unfurnished yokes by means of a simple single screw fixing.

FEATURES & BENEFITS

ROBUST CONSTRUCTION

- Polycarbonate construction
- High impact resistance
- UV protected against fading
- Ergonomic Design
- Smooth operation of switches
- Neutral modern design suitable for most locations
- Flexible rubber base allows for mounting on most types of uneven surfaces

MULTIPLE GLAND ENTRY POSITION

- Multiple knockouts (20mm) for entry from all angles

WEATHERPROOF - IP66

- Offers high level of protection against ingress of water jets and dust

MULTIPLE SWITCH CONFIGURATIONS

Designed to fit switched MiniGrid® Or GridPro® Modules (depending on which yoke purchased).
