Ovia® Lamps... 25,000 hours lifetime, 85% energy savings, 100% instant full light!

Contents

J172 LED Lamps

J176 Lamps

J177 Transformers

Only lamps that have undergone rigorous testing and meet or exceed all current directives and legislation will be included in the range as we further develop the product portfolio.

Our Ovia® Lamp range comprises a number of GU10 lamps which incorporate the latest SMD (surface mounted diode) technology. SMD technology enables manufacturers to produce lamps that offer a better quality light output, are more affordable and continue to offer the significant energy savings associated with LED technology.
